Bill de Decker BIOGRAPHY

Bill de Decker is President and co-owner of Conklin and de Decker. Bill’s primary areas of expertise are cost analysis, financial management and fleet planning. He teaches a number of management seminars, is co-author of the “Aircraft Acquisition Planning” Book and regularly writes articles for magazines including Aviation Maintenance Technology and ProPilot.

Bill’s experience includes aircraft operations, sales engineering, market research, and aerodynamic design. His responsibilities range from consulting studies to developing new programs for the company. Areas of expertise include financial management, business and fleet planning, certification issues, life cycle cost and operations. From 1976 to 1989, Bill managed the Falcon and Bell Learning Centers, as well as, the Communications Systems Division for FlightSafety International. Prior to 1976, Bill worked for Dassault Falcon Jet and Boeing.

Bill has both a BS and an MS degree in aerospace engineering. In his over 40 years of experience he has been involved in every area of the aviation business including operations, training, management, aircraft design and sales.

Bill works out of the Arlington, Texas office.
